# Automatic Home Pool Dosing Systems

## The Science of Clean Water

Twenty years of sound scientific research.  
The development of proven products.  
Offered with wisdom and integrity.  
Your guarantee.

Quality is never an accident. It is the result of  
high intention, intelligent direction, committed  
endeavour and skillful execution. It is never  
easy but it is worth it.

# PoolMate<sub>HP</sub>

## FEATURES

- Extremely easy to use:
  - > set the pool volume and that's it – all the dose timing is set automatically.
  - > want the pH higher or lower – turn the pH knob up or down.
  - > want the chlorine level higher or lower – turn the chlorine knob up or down.
- Proper industrial grade electronic design ensures superb accuracy, precision, reliability and repeatability.
- Automatic pH measurement, monitor and control.
- Automatic ORP measurement, monitor and control.
- Unique automatic ORP probe cleaning function.
- Unique external one point calibration.
- Proportional dosing.
- Easy set-point determination.
- Automatic overfeed / empty container shut out function.
- Industrial grade engineered pump ensures years of reliable dosing.

# ChloriMate<sub>HP</sub>

## FEATURES

- Extremely easy to use:
  - > set the pool volume and that's it – all the dose timing is set automatically.
  - > want the chlorine level higher or lower – turn the knob up or down.
- Proper industrial grade electronic design ensures superb accuracy, precision, reliability and repeatability.
- Automatic ORP measurement, monitor and control.
- Unique automatic ORP probe cleaning function.
- Unique external one point calibration.
- Proportional dosing.
- Easy set-point determination.
- Automatic overfeed / empty container shut out function.
- Industrial grade engineered pump ensures years of reliable dosing.
